FINANCIAL AND COMMERCIAL.

TUESDAY, Nov. 14-6 P. M. The stock market has been firm, but rather dull to-day. t the early session of the open board Eric sold at 91% %, Hudson River 107%, Reading 114%, Michigan ithern 75%, Northwestern preferred 65%, Fort Wayne 103 At the first regular board prices were well sustained New York Central closed % higher than at the second board yesterday, Erio %, Michigan Southern %, Illinois Contral 1½, Cleveland and Pittsburg ¼, Northwestern ¼, preferred ¼; Rock Island ¾, Ohio and Mississippi certificates ¾. Fort Wayne failed to sympathize with the general market, owing to the report that the four new directors of the company—Messrs W. F. Havemeyer, J. P. Yelverton, W. Whiteright, Jr., and Oliver H. Charlick—are opposed to the perchase of the Mississippi and Missouri road, which the remaining members of the old board favor. The former are understood to have sued out an injunction to pre appointed to treat for the purchase of the road in ques-tion. Mesers. Durant, Pfesident; Tracy, Sturges and Davis compose the latter, and have, it is said, drawn open the treasurer of the company for \$750,000, with the intention of applying the same to the purchase. The committee was invested by the old board with full power to act for the company in this matter, but this being disputed by the new directors, a ery protty quarrel is the result. Cumberland was unchanged; Canton & lower. Government securities were heavy at yesterday's second board quotations, coupon five-twenties of the 1865 issue excepted, which declined 4. There was a sale of Prairie du Chien common stock The transfer agent of the company was examned by Judge Sutherland to day upon matters bearing spon the injunction, but no further progress was reported in the case. Western Union Tolegraph stock rose to 70—an advance of 13 per cent since yesterday morn-

ing. Atlantic Mail sold at 135.

After the call prices were a fraction lower, and at the open board at one o'clock and subsequently they were higher. At the second regular board the extreme prices shed were not sust ned; but the market was steady New York Central closed 1 per cent higher than at the New York Central closed I per cent nigner than at the first board, Eric 134, Hudson River 34, Michigan Southman 34, Cleveland and Pittsburg 134, Northwestern 34, Fort Wayne 34. Reading was 34 lower, Northwestern preferred 34, Rock Island 34. A few shares of Prairie du Chien were sold at 10034. Government securities atinged depressed, and coupon five-twenties of the

The steady pressure to sell national securities, and their consequent decline in price, is the natural result of the country being overloaded with them, and of the pre-vailing apprehensions that the policy of the government avors a contraction, which will conduce to a general decline of prices. Moreover, as a contraction of the curinvolve a nearly corresponding increase of the funded debt, the holders of the bonds repre-senting the latter are the first to take alarm and hasten to convert their securities into cash or other property which they imagine will prove more profitable to them. This tendency of public feeling has been materially influenced by the talk of the rudical contractionists and Mr. McCulloch's Fort Wayne speech, and as all extremes ought to be avoided the needless apprehensions of the holders of government counties should be checked before they have time to ergo much further development. Within the last two or three weeks a large amount of government se-curities has been sent to this point for sale by country national banks, the unduly expanded condition of whose adairs rendered this course absolutely necessary to maintain their solvency; but now private investors are observed to be selling out their governments, which furnishes practical evidence of their distrust of the stability of current prices. This is mainly owing to aggerated ideas regarding the future action of Con-ess with respect to the finances. The people require be told that it is to the interest of the governcommercial panic or monetary derangement of any tank and to leave the appreciation of the currency is already as the set possible to be worked out by natural own.
